COUNTRY JURIES TO TRY CASES IF CITIES PARTIES

Bill to Change Code of Practice
in This Regard Introduced
in House.

One or Two Democrats Likely
to Lose Contested Seats.

FOR INSPECTION OF WEIGHTS

Frankfort, Ky., Feb. 6.—Representative John Feland, of Hopkinsville, introduced a bill in the house to change the code of practice. The bill provides that in all litigation, where any city or incorporated town has an interest, either as plaintiff or defendant, the jury shall be selected from the county outside the city. According to the author, the present system of securing a jury these cases work a hardship to plaintiffs in damage suits against a town or city, as the attorneys on the other side in their arguments to the jury, on which in most cases are residents of the city, dwell on the fact that should they allow damages they, as taxpayers, will be the ones who will have to pay the judgment. Mr. Feland says that usually does the work.

Representative R. E. Stewart, of Hancock county, wants all scales used to weigh the products of farmers and others officially inspected by state authority at least twice a year, and will introduce a bill in the house providing for such regulations. He says shippers of tobacco in the Green river and dark districts have suffered greatly by lack of such inspections, which tends to encourage discrepancy in weights by persons who may be dishonest. The authority for the official inspection of scales will likely be conferred on the department of agriculture.

House Contests.

Frankfort, Ky., Feb. 6.—One and perhaps two Democrats who now hold seats in the legislature may lose their places as a result of contests which have been filed against them. The committees which have their cases under consideration have never made a report, but it is rumored on good authority that a report will be made the next day or two and the report will recommend that the Republicans be seated. It is also reported that the majority of the members of the house will vote to adopt this report.

In the house now there are forty-nine Republicans and fifty-one Democrats, and the unseating of two Democrats would leave the position of the two parties just reversed. It is regarded as probable that no more than one Democrat will be unseated, and this would leave each party with fifty members.

HARD ON THE DOCTORS

A petition in bankruptcy has been filed by Carl M. Post, a farmer of the county, who gives liabilities of \$335, with no assets. The indebtedness is due Drs. Frank Boyd and R. D. Harper for professional services rendered Mr. Post's wife.

K. C. SMOKER

A large number of Knights of Columbus and male members of St. Francis de Sales parish attended the smoker given by Paducah council last night, and an unusually enjoyable time was had. F. H. Flanagan presided, and addresses were made by the Rev. H. W. Jansen, J. T. Donovan, J. J. Doran and A. H. Egan. The Knights expect to have a large class for initiation about Easter.

COPPER COUNTRY BLIZZARD SWEEP AND SNOW BURIED

Houghton, Mich., Feb. 6.—Copper Country is enveloped in the worst blizzard of the winter and present indications are that it will continue during the next 12 hours. All trains are two to ten hours late, some failing to arrive at all. Trolley lines are buried beneath the snow.

Train Service Demoralized.
New Richmond, Wis., Feb. 6.—A severe storm raged last night and today. It was general all over Northern Wisconsin. Train service is demoralized.

Taft on First Ballot, is Opinion of Tom Taggart and Urey Woodson, Who Are Observers of Conditions.

Chairman of Democratic National Committee Believes
That Republicans Will Have
Harmonious Convention.

Chicago, Feb. 6.—Nomination of Secretary of War Taft for president on the first ballot in the Republican national convention was predicted by the men who think they will have to manage a campaign against him. Thomas Taggart, chairman, and Urey Woodson, secretary of the Democratic national committee, were the men who forecast the action of the Chicago convention. They went to the Auditorium Annex, where they were met by Roger Sullivan, Democratic national committeeman from Illinois, chairman of the subcommittee on arrangements for the convention.

The prediction of Chairman Taggart and Secretary Woodson as to the choice of the Republicans was called forth indirectly by a question regarding the special message sent by Roosevelt to congress.

"Do you think that the president's message will have any effect upon the general political situation?" was asked of Mr. Taggart.

"I cannot see that it will," said he. "The president said nothing in his special message which he has not reiterated. The same opinions are repeated. In my mind the special message will help Secretary of War Taft's candidacy."

"It looks to me," continued Chairman Taggart, "as if the Republicans are going to have a convention as harmonious as our meeting at Denver. To my mind there is nothing to it except Taft for the Republicans. His choice seems to be as much a certainty as the choice of Mr. Bryan. I believe that the first ballot will settle the Taft matter."

"Yes, and if there was a chance that some trick might be played which would hurt Taft, you would see Roosevelt arise in the convention and make the effort of his life," added Mr. Woodson. "Roosevelt will do all he can for Taft."

Both the leaders said they thought that the Republicans would make "Rooseveltism" the issue of their campaign and that the candidates of the party—state and local—would try to keep the president and his policies to the front in the campaign.

The Rev. W. A. Freeman, of Fulton, will lecture at the First Baptist church Friday evening on "Christian Citizenship."

EFFORT TO REMOVE M. E. GILBERT AS ADMINISTRATOR IS LATEST MOTION

Trouble Over Estates of W. Y.
and Mrs. Alma Griffith Bobs
Up Again in County Court—
Hearing February 17.

Notice was served on Attorney M. E. Gilbert by Attorney W. A. Berry, representing Dr. B. B. Griffith, guardian of Isabelle and Urey Griffith, that on February 17 a motion will be made before the county court to have Gilbert removed as administrator of the estate of W. Y. Griffith, and to call for an accounting.

The motion is said to have grown out of an investigation, since the controversy arose between Gilbert and

the members of the Griffith family in regard to a will, which Gilbert sought to have probated, as that of Mrs. Alma Griffith, widow of W. Y. Griffith, of whose estate Gilbert was administrator, and it is claimed that Gilbert has failed to make any effort to settle the estate.

In the meantime Mr. Gilbert and some of his friends are busy and are expected to make a hard fight not only to sustain the will, which he declares is genuine, but to prevent his removal as administrator of the estate of W. Y. Griffith. In addition to the law firm of Hendrick & Corbett, the names of the firm of Oliver & Oliver appear on a petition filed in circuit court yesterday by Gilbert as administrator of W. Y. Griffith's estate against Dr. B. B. Griffith to enforce the collection of a debt bill for \$106.15 claimed due the estate.

Dr. Griffith is clearly solvent, but refuses to pay any money over until the motion to remove Gilbert as administrator is decided.

Upon the will being refused probate, Dr. Griffith was appointed executor of the estate of Mrs. Alma Griffith and guardian of the children.

NEW SUPT. IN CITY

General Superintendent E. M. Williams and Division Superintendent Lucian Minor, of the Southern Express company, were in the city yesterday and today are visiting Manager Earl Norton, of the local office of the company. Mr. Williams was only recently made general superintendent of the company and this is his first visit to Paducah. Both officials expressed themselves as being well pleased with the manner which the business of the local office is handled, and complimented the employees for their good work.

TWO CENT FARE IS SUBJECT OF BILL IN LEGISLATURE

Another One Makes it Unlawful
and Punishable to Serve
Cold Storage Eggs.

Joint Session Results in Same
Old Situation

WAGGONER COUNTY UNIT BILL

Frankfort, Ky., Feb. 6.—(Special.)—At the joint session 125 were present, 83 necessary to a choice. Beckham received 60, Bradley 59, scattering 7. Mueller voted for Atherton and Charlton for Watterson.

This is bill day in the house. Among the important measures introduced were:

Strange—Making it unlawful and subject to fine of from \$50 to \$500 for any hotel or restaurant to serve cold storage eggs or fish.

F. J. Brown—Fixing the maximum fare on railroads at two cents.

The public morals committee agreed to defer Representative Waggoner's county unit bill until next Wednesday in order that honor people may not have a complaint. A hearing will be given them.

FAVORS CONTROL OF BIG CORPORATIONS

New York, Feb. 6.—Judge E. H. Gary, chairman of the United States Steel corporation, in a statement says he favors the physical valuation of corporations and their investigation and control by the federal government. He says knowledge and publicity of great corporation's affairs is the only source of protection against imposition and fraud. Such should cover, not only over capitalization, but the subsequent conduct of corporations.

JAPAN EXEMPTS ARTICLES FOR COMING EXPOSITION.

Tokio, Feb. 6.—The house of representatives passed a bill, exempting articles for the international exposition from custom duties.

EAGLES' GYM.

A list of paraphernalia for a gymnasium for the Eagles has been submitted by A. J. Spalding to cost \$750. This list does not include the outfit for a basketball team or a baseball team. A bid of \$1,150 has been given by a Toledo firm for building a swimming pool, but the lodge will let the contract to a home firm, if reasonable bids are put in. The pool is to be made of cement.

It is planned that two afternoons of each week will be given to the ladies and children for gymnasium purposes and the use of the swimming pool.

Next Sunday morning at 10 o'clock there will be a meeting of the Eagles and all the young men of the city of eighteen years and up at the Eagles club rooms for the purpose of organizing the gymnasium club. They already have about 150 members.

INDIGNITY WAS OFFERED HER ON PULLMAN SLEEPER

Alleging that she was placed in the drawing room apartment of a sleeper, after she had engaged passage in a lower half of a berth, Miss Ella Patterson has filed suit in circuit court against the Pullman company and the Illinois Central Railroad company for \$2,000 damages. Miss Patterson states in her petition, that upon the refusal of the conductor of the sleeping car to place at her disposal the berth engaged, she agreed to take an apartment in the drawing room of the car with the understanding that no man was to be placed in that apartment; but that after she had retired a man was placed in the apartment directly above her and that he attempted to enter her apartment and otherwise insulted her, and that although she gave the alarm, the conductor refused to remove the man from the apartment and she was forced to spend the night in fear that the indignities would be repeated.

The incident occurred coming from Chicago to Paducah, August 30, 1907. The plaintiff is the daughter of W. H. Patterson.

PEANUT COMPANY APPRAISERS FIX VALUE OF PLANT

The value of the machinery and fixtures of the Southern Peanut company was fixed at \$3,000 by J. S. Jackson, Sr., J. S. Jackson, Jr., and M. W. Boyd, who at the instance of A. E. Boyd, receiver of the concern, appraised it this morning and the report of the appraisal was filed with Referee Bagby, of the bankrupt court. In a former report the receiver states that the books of the company were in a bad tangle and would require a great deal of work to be straightened out, so that the amount of the indebtedness could be known. A meeting of the creditors has been called for February 17 and notices have been sent to all the known creditors of the company that they may present their claims against the company.

REFERENDUM MEASURE IN OHIO LEGISLATURE.

Columbus, Ohio, Feb. 6.—After one of the hardest fought contests ever witnessed on the floor of the Ohio senate, that body this afternoon adopted the joint resolution introduced by Senator A. Twell, of Licking county, providing for the submission to a vote of the people at the election next November, an amendment to the constitution providing for the initiative and referendum in state legislation. Twenty-three votes were necessary for the adoption of the resolution and twenty-five were cast for it.

RUSSIA MASSING TROOPS TO AVOID TURKS' INVASION

St. Petersburg, Feb. 6.—Five thousand troops have been ordered from Northern Caucasus to the Turko-Persian frontier whither soldiers in small detachments have been proceeding steadily for several weeks past.

This concentration is due to the aggressive attitude of the Turks in their frontier dispute with the Persians.

The governments of Turkey and Persia have been disputing about the boundary line near Tabriz for some time past, and the situation is serious because of the fact that the interests of Germany, Great Britain and Russia may be gravely affected by an outbreak of hostilities. Turkish troops have occupied Persian territory and committed depredations.

Under cover of Kurdish tribesmen, the Turks are reported as massing infantry at Bayazid and other strategic points near the frontier in such strength as to dispose of the probability that the movement is intended solely against non-militant Persia.

Russia has only two army corps in the Caucasus, a large part of which is dispersed in detachments through the country to preserve order.

NIGHT RIDERS AGAIN

Hopkinsville, Ky., Feb. 6.—(Special.)—A band of night riders in west Christian county cut down telephone poles and beat Lucien Means, a farmer, who sold crops outside the association.

LABOR'S ANSWER

Washington, Feb. 6.—An amendment to the Sherman anti-trust law, providing that nothing in the law shall be made to apply to unions or any labor organization, was introduced in congress as organized labor's answer to the recent supreme court decision.

FRANCO IN ITALY AND WILL REMAIN IN RETIREMENT

King is Requested Not to Attend
Funeral of His Father
and Brother.

Is Recovering Sufficiently to
Sign His Edicts.

ARRANGEMENTS FOR FUNERAL

Lisbon, Feb. 6.—Former Premier Franco has gone to Italy, where he will live in the future. King Manuel is improving from his wounds and his arm was in condition to sign decrees, which are rapidly restoring the constitutional form of government. Advisers are trying to prevail on him not to attend the funerals Saturday. The diplomatic corps will view the bodies in the chapel tomorrow.

Funeral Services.

Lisbon, Feb. 6.—Preparations for the funeral of the dead king and the crown prince are rapidly nearing completion. American Minister Bryan has received the appointment of special envoy of America. He has transmitted a resolution of sympathy adopted by the American senate to Foreign Minister Lima, who was especially touched by the appreciated form of the condolence. The funeral Saturday morning will be attended with ceremonies of impressive dignity and with all the display of mourning and pagentry which attend the obsequies of Portuguese monarchs.

From the chapel at the Necessidades palace, where the bodies have reposed since February 1, servants of the house of Braganza, in the presence of high officers of the palace and of the state, special ambassadors and representatives of foreign sovereigns and states, will carry the coffins from their resting place to the funeral carriages. In front of the coffins will march high church dignitaries carrying up-raised crosses; royal, civil and military households and ministers, peers and deputies. Following the coffins will walk the queen and her mother and her son, King Manuel, after whom will come the ambassadors.

From Necessidades palace to the church of San Vicente De Fora, where the services are to be held, the funeral cortege will move slowly through the streets heavily guarded by troops.

When the church has been reached the bodies will be received at the main entrance by the Brotherhood of Misericordia, archbishops and all the bishops of Portugal, with upraised crosses. Following the coffins the new king and princess of the houses of Savoy, Hohenzollern and Bourbon will walk.

The king will proceed to the tribune prepared for him and the queen mother, while the princess will occupy a tribune facing the royal box.

The funeral services will be conducted by the cardinal patriarch of Lisbon. Before granting absolution a short allocution in praise of Don Carlos and Crown Prince Luiz will be delivered by him.

After the bodies have laid in state for three days in the church the coffins will be carried through cloisters to the royal pantheon where rest the remains of the princes of the illustrious house of Braganza. The queen mother and King Manuel will follow the bodies of their beloved kin to the last resting place.

The major-domo of the palace will then swear that the bodies in the coffins are those of King Carlos and Crown Prince Luiz, and they then will be placed in the niches prepared for them. When this has been done the infantry stationed outside of the pantheon will fire volleys, and 101 guns from the ports and salutes from men-of-war in the harbor will announce to the people of Lisbon that the solemn ceremonies are at an end.

Newspaper correspondents from London, Paris and Berlin are flocking into Lisbon. They seem disappointed at finding that the country is not in the throes of revolution. Outgoing telegraph lines already are swamped, and there are many delays incident to the flood of messages.

Increased precautions have been taken by the authorities to prevent the spread of false or alarming reports. Both commercial and press telegrams are examined to see that they conform to regulations forbidding the transmission of anything inimical to the public security or in-reverent to the royal family.

MICHIGAN IS FOR TAFT FOR PREST.

Twenty Delegates of Twenty-eight Already Certain.

Popularity of Roosevelt and Confidence in Taft in Middle West Too Strong.

THOSE WHO ARE BEHIND HIM

Detroit, Feb. 6.—Michigan is for Taft. Of the twenty-eight delegates from this state to the national convention at least twenty will be for the secretary of war. The remaining eight may be for him also—indeed, the probabilities are that they will be, but until the situation develops a little further they cannot be regarded as certain. The four delegates at large and most of the district delegates will be instructed for Taft. An effort is being made to secure a unanimous delegation, and unless something goes wrong it is probable the effort will succeed.

No one now denies that Michigan is a Taft state. There is no serious opposition to the Taft program. No open work is being done for other candidates. The people and the politicians regard the outcome as already determined—that the vote of the state is for Taft. The only question is whether two or three districts are to stand out against the general will and wish of the Republicans of the commonwealth.

Although some exceedingly clever politicians in behalf of Taft marks the recent history of events here, the salient, the compelling fact is the trend of public opinion. It is conceded by every one, even by men who favor other candidates, that a great majority of the Republicans favor Taft. The strength of this sentiment among the masses, as in Ohio, and many other states, has made it easy for those operating practically and looking after affairs to secure results. These men are so well satisfied with what has been done that they are now

virtually resting on their oars. Their work is done. All they need do in the future is to watch two or three districts where the result may still be regarded as in doubt.

When we come to look closer into the character of this public opinion, and the genesis of it, we find some very interesting and suggestive facts. If the case of Michigan is typical of public opinion generally in the west, we here get a quite accurate and instructive clue to the current trend of thought among the American people on national affairs.

The development of the Taft movement in Michigan may be ascribed to two distinct phases of public sentiment:

The first is a belief among business and professional men that Judge Taft would make a strong and steady president. They admire his character and his services. Many of them, especially the lawyers—and lawyers here as everywhere are leaders in politics—have met him and formed their estimate of him at close range.

Taft Men.

These are the men who have taken hold and given of their time and energy to the cause. They are for the most part men who believe in the Roosevelt policies, broadly speaking. But they took upon the president himself with varying degrees of approval. They are discriminative in their applause, and their praise is often accompanied by qualifying additions. Some would be glad to have Roosevelt himself the candidate again. Others are bitterly opposed to any such proposal. Between them, and embracing perhaps the majority of this class, are those who want the Roosevelt work carried on, but want it carried on in a more quiet way. Out of scores of similar expressions in this line that have reached my ears the following may be set forth as typical:

"I believe in what is called Rooseveltism. I believe we should go on trying to make corporations obey the law, trying to punish rascality, trying to make railroad and finance more honest, trying to stop Wall Street from tying up the country's money in its gambling schemes, and all that. But I believe this work can be carried on successfully without so much beating of the drum, without so much calling of men liars, without running amuck and shooting-up the town. I believe Judge Taft would preserve all the vital part of Rooseveltism and

More proof that Lydia E. Pinkham's Vegetable Compound saves women from surgical operations.

Mrs. S. A. Williams, of Gardiner, Maine, writes:

"I was a great sufferer from female troubles, and Lydia E. Pinkham's Vegetable Compound restored me to health in three months, after my physician declared that an operation was absolutely necessary."

Mrs. Alvina Spierling, of 154 Cleybourne Ave., Chicago, Ill., writes:

"I suffered from female troubles, a tumor and much inflammation. Two of the best doctors in Chicago decided that an operation was necessary to save my life. Lydia E. Pinkham's Vegetable Compound entirely cured me without an operation."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

drop some of the objectionable part."

The second subdivision of public sentiment in this state is that found among the masses of the people. It is Roosevelt idolatry pure and simple. It is a feeling that President Roosevelt is the greatest man the country has had in public life since Lincoln. All that the Rev. Mr. Dixon and other ministers of the gospel are saying about Roosevelt as a John the Baptist, and all that Bourke Cockran says about him as the only crusader the Republican party has, these people believe implicitly. They are of both political parties, of all political parties. They are sincere, enthusiastic, almost fanatic in their faith in the man and his works. In their eyes Roosevelt can do no wrong. He has them completely hypnotized. They love him and hate his enemies. They believe it was his enemies who brought on the panic in New York for no other purpose than to hurt their idol.

Now, the interesting thing is that these two phases of public opinion ran together and coalesced in the Taft movement in this state.

SHOOK LAMP

AND OIL IGNITED, CAUSING EXPLOSION AND FIRE.

Central Company Gets Call From Wrong Box and Makes Useless Run—Another Blaze.

Shaking a lamp at the residence of Mr. Clarence Fette, 1615 Broad street, caused the oil to catch fire and explode last night about 8 o'clock, and for several minutes the house was in danger of burning. The lamp was on a folding bed, and when the bed was lowered the lamp was jarred and the oil caught fire. The explosion threw the burning oil over the bed, and a feather bed, two comforts and the floor were burned. In pulling the burning comforts off the bed, Mr. Fette had his right hand painfully burned.

Mr. Fette secured two buckets of water and had the fire abated when the firemen from station No. 2 arrived, and put an end to the blaze with the patent fire extinguishers. The alarm was sent in from box No. 34, Fourth and Broad streets, and was received at the central station as 31, which is at Second street and Kentucky avenue. The central firemen went to this number, but discovered their mistake. Station No. 2 answered the alarm at the Fette residence.

Wire Causes Scare.

One of the chandeliers at the residence of Mrs. S. R. McGinnis, 706 Broadway, was grounded yesterday afternoon shortly after 3 o'clock by a defective wire. The spattering of the wire alarmed the residents, and a telephone message was sent Fire Chief Woods. Capt. Joe Collins, of the central station, answered the alarm and cut the wire, which ended the trouble.

In the District Court of the United States for the Western District of Kentucky, in Bankruptcy, In the matter of Mark Cutsinger, a Bankrupt.

On this 4th day of February, A. D. 1908, on considering the petition of the aforesaid bankrupt for discharge, filed on the 2nd day of February, A. D. 1908, it is ordered by the court that a hearing be had upon the same on the 22d day of February, A. D. 1908, before said court, at Louisville, said district, at 10 o'clock in the forenoon, or as near thereto as practicable; and that notice thereof be published one time in the Paducah Sun, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at said time and show cause, if any they have, why the prayer of the said petitioner should not be granted.

Witness the Honorable Walter Evans, judge of the said court, and the seal thereof, at Paducah, in said district, on the 4th day of February, A. D. 1908.

THEATRICAL NOTES

"The Land of Nod."
When "The Land of Nod" is presented at The Kentucky, February 18, theater-goers of Paducah will have an opportunity of witnessing the famous musical comedy with all the new paraphernalia, in the matter of scenery, costumes and other effects. It has been repeated time and time again in the various cities from Detroit to Omaha and from St. Paul to New Orleans, and always with the same patronage. "The Land of Nod" has comedy of the brightest sort; its music is all jingling and "catchy." Its sartorial equipment is most gorgeous and beautiful. Its presenting company is made up of exceedingly clever comedians and vocalists, its great chorus of 60 comprises 50 handsome young women who know how to sing and dance and its ensemble, generally, is as complete, attractive and effective as it is possible for modern stage masters to devise.

"The Lyman Twins" Coming.
The famous young stars, "The Lyman Twin Brothers," who will be seen here soon in their latest hit, "The Yankee Drummers," are comedians in a class by themselves, and entertainers who deal out comedy lines and situations in a way seldom seen. "The Yankee Drummers" is a most elaborate production in which they have yet appeared. Carrying a large company a dainty chorus of pretty girls, a host of funny comedians, singers and dancers, together with a beautiful array of scenic and electrical effects complete. The flirtation song, the poppy girls and the country maidens are novelties.

Judge Charles A. Dewey, who has just celebrated his seventy-seventh birthday at Milford, has the distinction of being the oldest judge sitting on the bench in Massachusetts. He was appointed trial justice on July 20, 1861, the same day the battle of Ball Run was fought. He has been head of the Third Worcester County District court since 1864.

ADES DISTRICT

IS PRO-TAFT AND WILL GO FOR HIM AS SECOND CHOICE.

Indiana Delegates to National Convention Pledged to Fairbanks for President.

Indianapolis, Ind., Feb. 6.—Indiana Republicans selected in district conventions twenty-six delegates to the national convention at Chicago. Four delegates-at-large will be chosen by the state convention April 2. The district conventions were harmonious, the delegates in many districts being selected by acclamation. In every district resolutions were adopted unanimously endorsing the candidacy of Vice President Charles W. Fairbanks for the presidential nomination and instructing the delegates to work and vote for him. Alternate delegates and national electors were chosen also.

James R. Goodrich, head of the Republican organization in Indiana, in commenting on the selection of the delegates said:

"The personnel of the Indiana delegation to the Chicago convention insures to Vice President Fairbanks the loyal and unswerving support of the state at the Chicago convention."

Defeat Anti-Taft Man.

Lafayette, Ind., Feb. 6.—The Tenth district Indiana Republicans, today elected George Ade, of Kentland, humorist and playwright, and Kitt Sills of Monticello, delegates, and Warren H. Simpkins, of Benton, and George A. Williams, of Jasper, alternate delegates to the national Republican convention in Chicago. The election of Ade and Sills followed a warm fight in which a sentiment for Taft was developed.

W. R. Wood, of Lafayette, was defeated for delegate because of pronounced anti-Crumacker and anti-Taft tendencies. The convention endorsed President Roosevelt's administration, the candidacy of Vice President Fairbanks for president and Harry New for national chairman. The understanding is that the delegates will vote for Fairbanks in the

BLIND, BUT A GOOD MARKSMAN.
Sightless Pennsylvanian is Charged With Throwing a Stone.

York, Pa.—Ald. Jacob Stager was today called upon to decide whether, in his opinion, a blind man can throw a stone so accurately that he could hit his enemy on the head and do the damage that has been done to Fred

W. Gostewitz of Springfield township. Gostewitz had brought charges against John and Elizabeth Hartman, neighbors, charging assault and battery and surety of the peace. It was solemnly averred that Hartman, although blind, was a better marksman than many a man who could see.
As Gostewitz's head had been broken by somebody, the alderman returned the case to court.

TARIFF REVISION

WILL BE INCLUDED IN REPUBLICAN NATIONAL PLATFORM.

Representative Payne, of New York, Leader of House, Says So in Speech.

Washington, Feb. 6.—Tariff revision and the president's recent special message to congress again were the main topic of discussion in the house.

A long speech by Payne, of New York, the majority leader, was considered important because of his assurances that the tariff revision plank would be incorporated in the Republican national platform this year. He devoted some attention to Bryan, whom he credited with going about the country accusing President Roosevelt of grand and petty larceny in pilloing his ideas.

Other speakers were Thomas, of North Carolina; Cox, of Indiana; Hardy, of Texas, and Nelson, of Wisconsin.

Representative O'Connell, of Massachusetts, introduced a bill today to amend the interstate commerce law. The bill provides:

"That nothing contained in the act shall be so understood or construed as to apply to trade unions or any labor organizations formed or organized for the purpose of regulating wages, hours of labor or other conditions under which labor is to be performed."

In explaining his bill O'Connell said:

"If enacted this bill will overcome objections raised by the supreme court in its recent decision declaring the terms of the Sherman anti-trust act apply to labor unions, thereby making unions liable for damages. I believe my bill will except all labor unions and I think the amendment, in view of the president's recent message, should be adopted."

SHE HAD PISTOL

WOMAN DEMANDS FREE TRANSPORTATION TO CAIRO.

Deputy Sheriff Hume Ogilvie Disarms Her and She Is Given Money.

With a pistol in her pocket an unknown woman visited the city hall yesterday afternoon after 4 o'clock, and wanted a ticket to Cairo and return to see her son, who she said was ill. She visited Chief Collins' office first, and inquired for the pass, but the chief told her she could not get it, as the mayor was not in his office. The visitor did not take the refusal with politeness. She remarked that she would have the pass or know why, and asserted she was entitled to the transportation. She stepped out of the door into the hall where Deputy Sheriff Hume Ogilvie was standing. He was informed by a small boy that the woman carried a pistol in a pocket of the long black cloak that she wore. The deputy sheriff took a peep at her pocket and there the gun was bulging out. From her tone of voice the sheriff thought something might happen and he drew the weapon from the woman's pocket before she could offer resistance.

The gun was taken into the police headquarters and locked in the vault by Captain Harlan. The woman told the chief that she had the pistol to sell and use the money to purchase food, but for fear the woman might shoot some one the weapon was kept under lock and key. She was given money.

During the excitement no one inquired the woman's name. She was of neat appearance, and wore a long black cloak. Vice Mayor Ed D. Hannan was not in the mayor's office at the time, and says he is glad he was not in her path.

HIDING IN CONSULATES.

Are Leaders of Late Uprising in Hayti Demands Their Surrender.

Washington, Feb. 6.—According to cable advices received by the state department from Hayti no less than 250 participants in the late uprising are now in "asylums" in the foreign consulates at Gonaives.

Only four of the refugees, however, are in the American vice consulate. General Firmin, leader of the revolution, is located in the French consulate office. The Haytian government has demanded the immediate surrender of the refugees, but it is not probable that they will be turned over except under a guarantee that they shall receive a fair trial or safe conduct.

MRS. WM. THAW DECIDES.

TO DEFER PROCEEDINGS.

New York, Feb. 6.—Mrs. William Thaw today called off O'Reilly and Peabody, who were prepared to begin habeas corpus proceedings to secure Thaw's release. Unless the state board of lunacy acts on Evelyn's appeal, which is already made, Thaw will be allowed to remain at Matteawan until Littleton returns, which will be about the last of March.

Daily Thought.

"Live day by day."

Foraker will keep up the fight, is the encouraging daily bulletin from Ohio, and yet we suspect that Foraker really expects the fight to keep him up.

Michigan goes for Taft.

King Alfonso, of Spain, should never go out walking again without his crown.

Nothing would become that Pennsylvania state capitol more than a statue of Quay, and nothing becomes the memory of Quay more than the capitol.

Toledo ice dealers, who fought a six months' workhouse sentence through the courts, won and they will go to jail instead of the workhouse.

Bryan and Taft will fight it out. There is practically no issue between the Democratic and Republican parties under the prevailing state of affairs and the campaign of 1908 will be simply a question of rival personalities.

This statement was made by Thomas Taggart, chairman of the Democratic national committee.

If it is going to be a campaign of personalities, let us run Ben Tillman and J. B. Foraker.

During the last six years the Pennsylvania railroad, west of Pittsburgh, has abolished 159 grade crossings, and east of Pittsburgh during the same period 568 grade crossings have been abolished. This work appears to be more or less voluntary on the part of the company, which figures, perhaps, that it can save the cost of every crossing in the personal injury damage suits avoided. Grade crossings are an abomination that should not be tolerated by authorities of city or county. The extra expense of going over or under a public highway will not deter a single railroad extension, and one human life is worth more than a railroad—that is if we reckon other people's lives at the same valuation we place on our own.

IMPORTANCE OF OUR RIVERS.

Fifty-four locks at a cost of \$63,731,488 would be necessary to afford a nine-foot, year around stage in the Ohio river from Pittsburgh to Cairo, and the annual cost of maintaining the locks would be \$810,000, to say nothing of the pools to be dredged. This is the estimate made by the government experts, who investigated the situation, and they report in favor of it from commercial reasons. In the report, the commission said:

"Whether or not the transportation of the higher grades of freight was taken entirely from the river depended upon the frequency and duration of its navigable stages. For instance, on the Ohio river such transportation as shown by the packet trade, is continued with fair remuneration from Cairo to Evansville, Evansville to Louisville and Louisville to Cincinnati, in so far as commerce that originates on the river and designed for river points is concerned.

"There seems to be no proof that the proportional decrease in the use of streams for general transportation is due to any other cause than the unreliability of such streams for the unimproved condition.

tion. Unreliability of river transportation has prevented the proper development of wharves, loading and unloading devices and the larger shipments of finished products have been prepared for shipping only by rail, adding to the disadvantages that the intermittent river transportation is forced to bear.

"There seems to be a misconception as to the time required to deliver goods by river in comparison with that required by rail. It can safely be stated that under present conditions when a navigable stage can be relied upon shipments of less than carload lots are generally delivered by river in less time than similar shipments are made by rail."

The establishment of year around navigation in the Ohio, followed by the similar improvement of Tennessee and Cumberland river conditions, is to be desired in Paducah more than any other waterway improvement project, Chicago and St. Louis are working for the great deep waterway from the lakes to the gulf, a project that is worthy, but will cost millions and millions and require years of patient toil. The Ohio tonnage today is the heaviest of any of the rivers. The Ohio valley commerce is the most important, and the territory exhibits the greatest possibilities of development, while the country back of Paducah on the tributary rivers is dependent to a great extent on water transportation, and Paducah loses money every year the improvements are postponed.

We are for the lakes-to-the-gulf deep waterway, but we are for the Ohio, Tennessee and Cumberland river development first, and decline to be led from the active support of this work, by staggering statistics of the Mississippi scheme.

DYCUSBURG.

Dycusburg, says the Louisville Times, made its appearance on the map at an early hour on the morning of February 4, 1908. Before twenty-four hours had passed the name, if not the fame, of Dycusburg had been carried by the gossiping wires from Portland, Me., to Portland, Ore., from Hell-for-Sartin to Podunk.

And for this undreamed-of publicity Dycusburg has to thank a volunteer organization of some seventy-five gentlemen who thought nothing of the hardship of a night ride of fifty miles in order to give to Dycusburg a place of prominence in the public eye.

Great undertakings cannot be accomplished without sacrifice, and the sacrifice was not all on the part of the riders. A large proportion of the dwellers in Dycusburg, two in number, offered their bare backs to the contact of thorned switches, a tobacco factory was sacrificed to the fire god, and every home in the hamlet now bears the marks of the hurtling bullet which sang the hymn of Dycusburg's introduction to the outer world. And Dycusburg paid the freight. There was nothing else for Dycusburg to do.

Incidentally, though of some consequence, Kentucky is again advertised far and near as a state in which the laws are impotent and life and property the plaything of those who enjoy such pastime. The members of the tobacco growers' pool are no whit nearer the sale of so much as one additional pound of tobacco, and there is at large and unpunished in western Kentucky another band of men prepared at first opportunity to engage in organized arson and assassination. Kentucky is paying a round price for its tobacco.

THE INTERNATIONALS.

The regime in Portugal has attracted attention once more to the anarchists, and Chicago police are talking of expelling the "reds" from that city. Most people think of anarchists as long-haired terrorists, who throw bombs at everybody, who represent the restraint of law. This is true of the class most heard of; but if the anarchist societies consisted only of such ignorant brutes, they would be quickly exterminated. It is because the theory of anarchy contains a germ of truth, and "theoretical" anarchists number among them men of learning and refinement, who teach its doctrines, that the societies exist, and possibly grow. A per cent of immigrants from Europe, that would alarm the people of this country, if they just knew it, are "theoretical" anarchists—"internationalists" is a more pleasing name to them.

Law is a restriction of personal rights. Men in authority are selfish. Law works injustice. Hence, opposition to law is justified. The individual soul is more important than nations. Hence, the anarchists are "internationalists," acknowledging no allegiance to any government, that would make them war on their fellowmen. They are part of the great social unrest; part of the protest against the law of the jungle; part of the condition that must exist until all moral questions are settled and settled right. Anarchy is "soured" Christianity, like a lot of other quips and quirks of the human effort to grasp the doctrine of universal harmony.

Because social order, as man has made it, is not perfect, they would destroy it and restore original chaos. Anarchists see something wrong and they fight it. Their mistake is in not finding something right and fighting for it. It would require the addition only of a pinch of hunger and an insult to make most of us discover something sympathetic with our mood in the creed of the "internationalists."

Comment us to the conservative newspaper. There is only one Democratic paper in Kentucky, we know of, that has no opinion on the senatorial situation.

CHAPTER XIV.

"My dear Helen, don't you realize that my official position carries with it a certain social obligation which it is our duty to discharge?"

"I suppose so, Uncle Arthur; but I would much rather stay at home." "Tut, tut! Go and have a good time." "Dancing doesn't appeal to me any more. I left that sort of thing back home. Now, if you would only come along."

"No, I'm too busy. I must work tonight, and I'm not in a mood for such things, anyhow." "You're not well," his niece said. "I have noticed it for weeks. Is it hard work or are you truly ill? You're nervous; you don't eat; you're getting positively gaunt. Why, you're getting wrinkles like an old man!" She rose from her seat at the breakfast table and went to him, smoothing his silvered head with affection.

He took her cool hand and pressed it to his cheek, while the worry that haunted him habitually of late gave way to a smile.

"It's work, little girl—hard and thankless work, that's all. This country is intended for young men, and I'm too far along." His eyes grew grave again, and he squeezed her fingers nervously as though at the thought.

"It's a terrible country, this. I—I wish we had never seen it." "Don't say that," Helen cried spiritedly. "Why, it's glorious. Think of the honor. You're a United States judge and the first one to come here. You're making history; you're building a state; people will read about you." She stooped and kissed him, but he seemed to flinch beneath her caress.

"Of course I'll go if you think I'd better," she said, "though I'm not fond of Alaskan society. Some of the women are nice, but the others—"

She shrugged her dainty shoulders. "They talk scandal all the time. One would think that a great, clean, fresh, vigorous country like this would broaden the women as it broadens the men—but it doesn't."

"I'll tell McNamara to call for you at 9 o'clock," said the judge as he arose. So, later in the day, she prepared her long unused finery to such good purpose that when her escort called for her that evening he believed her the loveliest of women.

Upon their arrival at the hotel he regarded her with a fresh access of pride, for the function proved to bear little resemblance to a mingling camp party. The women wore handsome gowns, and every man was in evening dress. The wide hall ran the length of the hotel and was flanked with boxes, while its floor was like polished glass and its walls effectively decorated.

"Oh, how lovely!" exclaimed Helen as she first caught sight of it. "It's just like home."

"I've seen quick rising cities before," he said, "but nothing like this. Still, if these northerners can build a railroad in a month and a city in a summer why shouldn't they have symphony orchestras and Louis Quinze ballrooms?"

"I know you're a splendid dancer," she said.

"You shall be my judge and jury. I'll sign this card as often as I dare without the certainty of violence at the hands of these young men, and the rest of the time I'll smoke in the lobby. I don't care to dance with any one but you."

After the first waltz he left her surrounded by partners and made his way out of the ballroom. This was his first relaxation since landing in the north.

GEORGE SHAW, COLORED, EXONERATED IN COURT.

As the result of a wrangle with Mattie Belle Thomas, a negro woman, who, it is said, was drunk, George Shaw, colored, proprietor of a restaurant at Ninth street and Kentucky avenue, was charged with malicious cutting, but after the evidence was heard Shaw was dismissed of the charge. It is said that Mattie went to the restaurant and was raising a disturbance, and Shaw put her out, when a tussle ensued. Mattie swore that Shaw used a meat cleaver on her head, which was tied up, but all of the witnesses failed to corroborate her statement. The woman had a knife in her hand, and Shaw explained that she cut her head on the corner of the counter. As the woman left the restaurant she threw a brick at Shaw as a farewell message.

ROY L. CULLEY & CO.
 415-417 BROADWAY
 QUINCY ST. N. E. COR. 10TH ST.

It was well not to become a dull boy, he mused, and as he chewed his cigar he pictured, with an odd thrill quite unusual with him, that slender, gray-eyed girl, with her coiled mass of hair, her ivory shoulders and merry smile. He saw her float past to the measure of a two-step and caught himself re-sending the thought of another man's enjoyment of the girl's charms even for an instant.

"Hold on, Alec," he muttered. "You're too old a bird to lose your head." However, he was waiting for her before the time for their next dance. She seemed to have lost a part of her gaiety.

"What's the matter? Aren't you enjoying yourself?" "Oh, yes," she returned brightly. "I'm having a delightful time."

When he came for his third dance she was more distracted than ever. As he led her, to a seat they passed a group of women, among whom were Mrs. Champain and others whom he knew to be wives of men prominent in the town. He had seen some of them at tea in Judge Stillman's house and therefore was astonished when they returned his greeting, but ignored Helen. She shrank slightly, and he realized that there was something wrong. He could not guess what. Affairs of men he could cope with, but the subtleties of women were out of his realm.

"What are those people? Have they offended you?" "I don't know what it is. I have spoken to them, but they cut me."

"Cut you?" he exclaimed. "Yes." Her voice trembled, but she held her head high. "It seems as though all the women in Nome were here and in league to ignore me. It dazes me. I do not understand."

"Has anybody said anything to you?" he inquired fiercely. "Any man, I mean?" "No, not The men are kind. It's the women."

"Come, we'll go home." "Indeed, we will not," she said proudly. "I shall stay and face it out. I have done nothing to run away from, and I intend to find out what is the matter."

When he had surrendered her, at the beginning of the next dance, McNamara sought for some acquaintance whom he might question. Most of the men in Nome either hated or feared him, but he espied one that he thought suited his purpose and led him into a corner.

"I want you to answer a question. No beating about the bush. Understand? I'm blunt, and I want you to be."

"All right." "Your wife has been entertained at Miss Chester's house. I've seen her there. Tonight she refuses to speak to the girl. She cut her dead, and I want to know what it's about."

"How should I know?" "If you don't know, I'll ask you to find out."

The other shook his head amusedly, at which McNamara flared up. "I say you will, and you'll make your wife apologize before she leaves this hall, too, or you'll answer to me, man to man. I won't stand to have a girl like Miss Chester cold decked by a bunch of milking camp swells, and that goes as it lies." In his excitement McNamara reverted to his western idiom.

The other did not reply at once, for it is embarrassing to deal with a person who disregards the conventions utterly, and at the same time has the inclination and force to compel obedience. The boss' reputation had gone abroad.

"Well—er—I know about it in a general way, but of course I don't go much on such things. You'd better let it drop."

"Go on." "There has been a lot of talk among the ladies about—well, er—the fact is, it's that young Glenister. Mrs. Champain had the next steamer to them—him—I should say—on the way up from the States, and she saw things. Now, as far as I'm concerned, a girl can do as she pleases, but Mrs. Champain has her own ideas of propriety. From what my wife could learn, there's some truth in the story, too, so you can't blame her."

With a word McNamara could have explained the gossip and made this man put his wife right, forcing through her an elucidation of the silly affair in such a way as to spare Helen's feelings and cover the busy tongue of magpies with confusion. Yet he hesitated. It is a wise skipper who trims his sails to every breeze. He thanked his informant and left him. Entering the lobby, he saw the girl hurrying toward him.

"Take me away, quick! I want to go home."

"You've changed your mind?" (Continued in next issue.)

GEORGE SHAW, COLORED, EXONERATED IN COURT.

As the result of a wrangle with Mattie Belle Thomas, a negro woman, who, it is said, was drunk, George Shaw, colored, proprietor of a restaurant at Ninth street and Kentucky avenue, was charged with malicious cutting, but after the evidence was heard Shaw was dismissed of the charge. It is said that Mattie went to the restaurant and was raising a disturbance, and Shaw put her out, when a tussle ensued. Mattie swore that Shaw used a meat cleaver on her head, which was tied up, but all of the witnesses failed to corroborate her statement. The woman had a knife in her hand, and Shaw explained that she cut her head on the corner of the counter. As the woman left the restaurant she threw a brick at Shaw as a farewell message.

In Police Court.

Another lengthy docket greeted
Judge Cross in police court this
morning. Many of the cases were
ones that have been continued. The
docket was: Drunk—D. S. Garr, con-
tinued until tomorrow; Eliza Sweeney,
59 days in county jail. Breach of the
peace—Sam Schofield, \$50 and costs;
Will Albritton, continued until to-
morrow. Malicious cutting—George
Shaw, colored, dismissed; Henry Rob-
ertson, alias "Raggy Front," col-
ored, continued until Saturday. Petit
larceny—Luther Chambers, colored,
dismissed. Embezzlement—H. E.
Hubbard, waived examination and
bond fixed at \$100. Housebreaking—
Henry Goulson, colored, examina-
tion waived and bond fixed at \$50.

Judgment Affirmed.

The court of appeals has affirmed
the judgment of the lower court in
giving Dr. I. B. Howell a judgment
against the Aetna Insurance company
for \$265 on a health policy. Dr.
Howell was operated upon for append-
icitis, while the policy was in force,
but the company refused payment on
the ground that he had failed to make
correct answers to questions in mak-
ing the application.

HENRY GOULSON WAIVES

EXAMINATION IN COURT.
Henry Goulson, colored, the over-
coat thief, waived examination this
morning on the charge of housebreak-
ing. In his rooms Goulson did not
overlook Hutchinson's boarding
house, and took a supply of hats from
the hall. He was held over yesterday
on the charge of stealing on overcoat
from F. R. Fitzpatrick.

Came Up O. K.

Ice that had been weakened by the
warm weather gave way under Mr.
Henry Rotgering, of the Cairo road,
while skating on a gravel pit. Mr.
Rotgering had a cold plunge to the
bottom of the pit, but came up quick-
ly and arose in the hole made where
he sank. As he rose his face was cut
badly by the sharp ice and Dr. W. C.
Eubanks was called to dress the in-
juries.

LOCAL OPTION BILL PASSED—

Ohio Senate Votes on Measure Mak-
ing County Unit.Columbus, O., Feb. 6.—The Rose
county local option bill passed the
senate last night by a vote of 24 to 13.
The bill provides that the voters of
any county can put all saloons out of
business by casting a majority of
votes.The main objection to the bill was
that the country people can regulate
the sale of intoxicating liquors in
cities and it is expected that many
counties will be voted dry.
It is almost certain to pass the
lower house and Governor Harris will
sign the bill when it reaches his office.

PAYNTER HAS BILL THAT

WILL SETTLE TROUBLE.

Washington, Feb. 6.—Senator
Paynter introduced a bill which is de-
signed to make more definite the
statute requiring state legislatures to
ballot for United States senator on
the second Tuesday after organization
it provides that when a legislature
shall organize on Tuesday it shall on
the following Tuesday proceed to elect
a United States senator. In such
states as Kentucky, where the legis-
lature meets on Tuesday, there has
been doubt as to the intent of the
statute and consequently senators
have been elected on two successive
Tuesdays following organization in
order to insure legality.

OBSTINATE ULCERS MAY LEAD TO CANCER

There is no difference, at first, in the appearance of a cancerous and a common ulcer, and for this reason every sore that is obstinate or slow in healing should excite suspicion, for the sore is nothing more than the external evidence of a polluted blood, and if allowed to remain may degenerate into cancer. Efforts to heal the ulcer by means of salves, plasters and other external remedies always result in failure, because such treatment can have no possible effect on the blood, where the deadly germs and morbid matter form, and are carried through the circulation to the place. No sore or ulcer can exist without a predisposing internal cause, and the open, discharging ulcer or festering old sore, will continue to eat deeper into the surrounding flesh as long as a polluted, germ-infected circulation discharges its impurities into it. S. S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood goes to the diseased place the healing begins, all discharge ceases, the inflammation gradually leaves, new tissue and healthy flesh are formed, and soon the sore is permanently cured. S. S. S. is made entirely of roots and herbs of a healing, cleansing nature, and unlike mineral medicines, the delicate parts of the system, S. S. S. tones up every part of the body. Book on Sores and Ulcers, and any medical advice desired free.

METHODIST

MINISTERS BELIEVE IN WORK OF WOMEN FOR TEMPERANCE.

Hold Regular Meeting and Prepare for Revivals in Near Future—Excellent Conditions.

Methodist preachers held their semi-monthly meeting Tuesday in the study of Broadway Methodist church, the Rev. J. W. Blackard presiding.

Brief reports were made by the Rev. R. W. Chiles, of the Union Rescue Mission; the Rev. T. J. Owen, of Highland circuit; the Rev. W. J. Naylor, of Paducah circuit; the Rev. G. T. Sullivan, of Broadway; the Rev. H. B. Terry, of Third street, and the Rev. J. W. Blackard, presiding elder. These reports were encouraging and indicate that these charges, as well as all the Paducah district, are making good progress. About fifty members were reported received this year by these pastors. No protracted services have been held, but plans are being made for revivals.

The discussion was led by the Rev. H. B. Terry, who read a paper on the subject, "Importance and Value of the Work of the Women in the Anti-Saloon League Movement in this City." All the brethren present made pointed remarks on the subject and agreed to keep up the agitation of the work of women, as a great co-operative power.

Tuesday, February 18, the Rev. G. T. Sullivan will lead the discussion of the subject, "Revivals—Its Conditions and Needs."

The Rev. W. J. Naylor, president of the Anti-Saloon League, announced that the league had secured the ser-

NO GREASE OR DANGEROUS DRUGS.

In "Herpicide," the New Scientific and Successful Dandruff Treatment. Have you dandruff? Then you have a contagious parasitic disease, unpleasant, unhealthy and one that will eventually lead to baldness. To cure it you must destroy the parasite that eats at the root of the hair. The only preparation for destroying these germs is Newbros Herpicide. Charles Klein, of Laramie, Wyo., says: "Herpicide allayed the itching, cured the dandruff and stopped my hair's falling out; and it is bringing a new crop of hair." Herpicide is free from grease or dangerous drugs, and makes hair glossy and soft as silk. One bottle will convince you of its merits. Sold by leading druggists. Two sizes, 50c and \$1.00. Send two in stamps for sample to The Herpicide Co., Detroit, Mich. W. B. McPherson, Special Agent.

Mission Society.
The ladies of the Third street Methodist church have organized an auxiliary of the Woman's Home Mission society of the Memphis annual conference. They are enthusiastic in their work and have begun a forward movement in both connectional and local work. The following ladies were elected to fill the offices for the year: President, Mrs. Sue Farnsley; first vice-president, Mrs. Margaret Berger; second vice-president, Mrs. F. Fisher; third vice-president, Mrs. Clarence Ballowe; recording secretary, Mrs. H. B. Terry; treasurer, Mrs. Neil Luftenburgh; corresponding secretary, Mrs. George Shepherd; agent, "Our Homes," Mrs. Walter Staveland; local treasurer, Mrs. F. H. Smedley; local committee, Mrs. Margaret Berger, chairman; Mrs. Martha Reeves, Miss Madie Myers, Mrs. Mollie Perkins and Mrs. Rhodes.

They will continue to meet the Monday after the first and third Sundays.

SKILL IN FORWARD PASS.

Revised Rules Drawn to Eliminate Chance Element.

Chicago, Feb. 6.—Walter H. Eckert, in the Chicago Tribune, says: "Although the joint football rules committee did not take as drastic action as many expected in their session in New York on Saturday, the changes which they did make in the playing rules will have far greater effect on the gridiron game next fall than a cursory perusal of the revisions would indicate. The forward pass is a permanent factor in football, according to the unanimous opinion of the rule makers, and it is the most prominent factor in the modern game every revision in the rules governing that play will produce considerable change in the game itself.

"The play as it now stands will give a weaker team a much better chance to win or make a good showing against stronger opponents than the former rules permitted. This has been the aim of the committee ever since the reform wave struck the game. These supposedly weak teams have nothing but commendation for the new game, as they say it gives them a chance, and this chance is an incentive to them to work and perfect a team and the strategic plays which the new rules afford.

"The changes will do away with many lucky passes."

"What is the best place in which to keep fresh milk in hot weather?" asked the teacher. "Please, teacher, in the cow," answered the small boy who had just returned from a country holiday.

STEAMING OF BEDS

IS BEING TRIED BY SOME OF THE GROWERS.

Caused by Scarcity of Brush in Some Localities—Old Method Is Preferred.

There is much interest among farmers in the experiments which have now been under way for the past season or two, of steaming their plant land instead of burning it with brush. The steaming is done for the same purpose as in the burning, i. e., the destroying of all seeds or insects which may be in the ground. Recourse to this method has almost been forced upon the farmers on account of the rapidly diminishing supply of firewood and brush. Every farmer will say that the burning of brush is the better plan, but all admit that the steaming is good enough to take its place under the circumstances.

In steaming a planted an ordinary traction engine is used. Tight wooden boxes about 8x10 feet and only a few inches deep are prepared. Leading into these is the steam pipe. These boxes are set upon the ground, which has first been plowed or spaded up to a considerable depth, and the steam turned in. This is continued for from twenty to thirty minutes, and in this time the steam destroys the foreign seeds and insects sufficiently for the purpose. It is believed that the experiments now under way will prove the solution of the difficulty which has been staring the farmers in the face for the past several years on account of the increasing scarcity of timber.

THREE LINKS

BUILDING WILL BE READY FOR OCCUPANCY FEBRUARY 20.

Second Story Partitions Are Torn Out and Lodge Rooms Are Nearly Completed.

Work of converting the second story of the Three Links building at Fifth street and Kentucky avenue into lodge rooms to be used by the Odd Fellows and Woodmen of the World, is progressing rapidly. The walls dividing the building into school rooms have been taken out and two large spaces for lodge rooms are left on each side, the hall through the center being allowed to remain. The Odd Fellows expect to be ready to occupy their rooms by February 20, which is the time their lease on their present quarters at Fifth street and Broadway expires.

TEN COMMANDMENTS

Issued to the Employees of the Fifth Avenue Bank For Their Good.

New York, Feb. 6.—Employees of the Fifth Avenue Bank were disturbed today by a report that a rule had been put into effect prohibiting them from entering any restaurant in which intoxicants are sold with meals.

Investigation, however, developed that the only truth in the report is that there is to be a stringent enforcement of the bank's rule against the use of intoxicants in public houses by its employees.

Here are the 10 commandments for the clerks of the Fifth Avenue Bank:

You must not drink any intoxicants with meals in public restaurants.
You must not enter any saloon.
You must not enter any gambling house.
You must not enter any poolroom.
You must not visit any race track.
You must not enter any bucket shop.
You must not speculate.
You must not attend prize fights.
You must not have vicious companions.
You must not frequent Broadway resorts or become conspicuous where the great white lights blaze.

Tuberculosis is much less common among coal miners than among other classes of people. According to the United States census statistics, miners and quarrymen occupy third place in the scale of tuberculosis mortality, only bankers and farmers being more immune. Coal dust antagonizes tuberculosis when already present, and many physicians have treated the disease by inhalation of coal dust.—Indianapolis News.

Conduct is simply character vitalized.

ONLY NECESSARY TO TREAT THE STOMACH

Claim of Central Figure in Recent Controversy is Novel.

The new theory advanced by L. T. Cooper, relative to the human stomach has attracted such widespread attention that the public in cities visited by the young man has been joined by many physicians in a discussion of his beliefs and medicines.

Mr. Cooper says that human health is dependent almost entirely upon the stomach. He says that no disease can be conquered without first alleviating all stomach disorders. He further says that most men and women of this generation are half-starved, owing to degenerate stomachs. And lastly, he claims that his New Discovery medicine will rejuvenate the human stomach in 90 days.

Cooper has been traveling from one city to another, conducting in each what he calls a campaign of education. For the past year he has met the public in the larger cities of the country, and his success has been phenomenal. Thousands of people have flocked to his headquarters wherever he has gone, and the sale of his medicine has been beyond anything of the kind ever before witnessed.

Possibly the most interesting feature of the attention this young man has attracted is what his army of followers, whom he has converted to his beliefs through his medicines, have to say on the subject. The following statements are from two well known residents of Chicago and Boston, respectively, and the enthusiasm of these is characteristic of Cooper's admirers generally.

Mrs. H. B. Mack, of 3201 State street, Chicago, says: "I have been suffering for 12 years from a combination of stomach troubles, catarrh and constipation. I had a gnawing pain in the pit of my stomach, a sort

of a dull pain that I could not quite understand. Then there was a dull headache, and my mind seemed to be wandering continually. I could not eat, and what little solid food I did eat, I could not retain on my stomach. I tried every remedy I could think of, and also tried out a number of patent medicines, but without any apparent result. It was through one of my friends that I heard of Cooper's preparation, and I immediately decided to try some of it. It is two weeks since I took my first dose of it, and I feel like a new woman. The headache seems to have disappeared, and the pain in my stomach along with it. The medicine is worth its weight in gold; and I want to thank Mr. Cooper for what he has done for me."

Mr. Edwin F. Morse, of 20 Oakley street, Dorchester, a suburb of Boston, says: "For three years I had not a well day. My stomach was in frightful shape; the mere thought of food would nauseate me, and I really had a horror of anything to eat. All solid food would cause me extreme indigestion, bloating and gas on my stomach, and nothing tasted right. Some time ago I got some of this Cooper's medicines, about which there is so much talk. I actually feel as well and strong as a boy ever since the first bottle. Every sign of stomach trouble has disappeared, and I have a hearty appetite and eat three square meals; everything seems to taste good. Anyone who knows what chronic indigestion is can appreciate what this means to me. I consider this the most remarkable medicine I ever heard of."

We sell Mr. Cooper's medicines, and find them to be all he claims—W. B. McPherson.

FOREST FIRE IN TEXAS.

Million Dollars in Property Has Been Destroyed.

Gaiveston, Tex., Feb. 5.—A prairie fire that started in Crosby county in Northwest Texas five days ago has caused the loss of nearly one million dollars, having devastated over 300,000 acres, part of which was cultivated, and destroyed twenty ranchers' houses and other buildings and killed about 15,000 head of cattle on the range. The fire started west of Empi, the county seat, with a strong

north wind, and burned rapidly south and into Garza county, and was still raging two days ago.

The nearest telegraph station is 110 miles from the conflagration, which has burned sixty-eight miles on a straight line, and nearly seven miles wide. No loss of life is reported.

PLANT BED PREPARATIONS.

Henderson, Ky., Feb. 6.—The mem-
bers of the Stemming District Tobacco
association, which has headquarters
in this city, are well pleased with the
work in which the pooled tobacco
is panning in and the warm rain,
which began to fall Tuesday night, is
expected to materially increase the
daily receipts. In the five counties
composing the district, two-thirds of
the entire 1907 crop, sold to the Im-
perial Tobacco company, has been de-
livered. The total receipts thus far
are 10,567,727 pounds.

In the deliveries Henderson and
Webster counties take the palm. Hen-
derson county has received 6,945,926
and Webster county 3,169,755. Union
county takes third place with 776,139,
while Crittenden county shows 478-
446. Hopkins county is the district
laggard, with receipts of only 110-
780. Throughout the district in the
deliveries of more than ten million
pounds, only 69,180 pounds have
been classified as damaged. The as-

association is in a flourishing condition,
and farmers who pooled this year are
anxious to pool for several years to
come.

Clarksville, Tenn., Feb. 6.—The
buyers on this market seem to be
ready to handle all tobacco that is
ready for sale. The sale last week
manifested that they did not regard
the prices excessive. In fact, the
prices on tobacco were to a certain
extent fixed by the loose buyers, and
the association has only added the
cost of rehandling. The larger part
of the crop is not really considered
on the market until April, and by that
time it is expected the warehouses
will be pretty well filled and the sales
will be speedily made.

Harmony Exists.
Since the agreement signed by the
buyers to receive no association to-
bacco, there has been perfect satis-
faction, and they have closely adhered
to their promise. They have solicited
the various officials to keep them in-
formed, as they desire not to be im-
posed upon by men who deny their
membership.

Committee Investigate.
At the meeting of the association
here Monday it was reported that R.
H. Walker & Co., were having ship-
ped to their factory here handpacked
tobacco from Kentucky. A commit-
tee was appointed to confer with the
mayor and chamber of commerce for
the purpose of ascertaining if this to-
bacco was all independent. The firm
upon being seen stated that the to-
bacco was bought in the stemming dis-
trict from a dealer who had decided
to close out and quit business, and
there was not a pound of association
tobacco in the lot. This tobacco was
brought here to fill an old order. This
statement was satisfactory to the
committee.

Out of It.
Hopkinsville, Ky., Feb. 6.—The sud-
den an extreme cold snap of the last
of the past week put an end to all
movements of tobacco on the local
market. Not only was this weather
cold, but it was accompanied by high
winds, the combination taking every
bit of moisture out of the tobacco
and making it impossible to handle
it. Unless the temperature changes
very materially those rehandling and
prizing houses which are not equip-
ped with steam apparatus for bringing
tobacco into condition, will have to
close down until the weather moder-
ates.

The local salesman of the Planters'
Protective association reports that
the work of prizing and sorting the
1800 types of tobacco, which were
graded at Guthrie recently, has now
been completed and these are now
ready for sale.

About 200 types were received last
week, making a total of 1,000 now
on deposit here.

1905 Green River Crop Reported to Be Sold.

It is reported that a deal has been
closed by which the American To-
bacco company buys all of the Green
River district quality tobacco of the
1905-crop remaining in the hands of
the Louisville Tobacco Warehouse
company amounting to 1,375 hogs-
heads. This is the last of the Green
River crop of 1905.

The prices paid, it is stated, range
from \$8 to \$11.30, and the total con-
sideration for the tobacco will be
about \$140,000. The sale is said to
be generally satisfactory to persons
having tobacco in the pool.

The distribution of the money will
not be made for some time. After
the tobacco is bitted out and paid
for all expenses of storage, insurance
and selling will be paid, and the re-
mainder turned into the hands of the
society for distribution. A computa-
tion will then be made as to the
amount due each individual who had

SKIN CURE A SIMPLE WASH.

External Remedy for Eczema Suffer-
ers Greatly Simplifies the Treat-
ment.

If you are suffering from any burn-
ing, itching skin disease, the only
way to cure it is to go right after the
real trouble—to cure the skin itself.
Thousands of patients have suffered
for months in vain attempts to doctor
their blood when the whole trouble
was bacilli feeding upon the skin and
causing the unsightly blotches and
sores.

Skin specialists now prescribe a
simple liquid wash, easy to apply,
which gives instant relief. This rem-
edy is composed of oil of wintergreen
to which are added healing vegetable
remedies. Oil of wintergreen alone
will not cure, but a mixture of experts
in Chicago, headed by a noted spe-
cialist, experimented with other medi-
cinal properties until they found the
proper preparation. The result of
their efforts is called D. D. D. Prescrip-
tion, a safe, specific for the cure
of skin diseases.

Here is only one instance of what
D. D. D. Prescription has done: "My
little girl's head was a running sore,

Clarksville Conditions.

The Association, salesmen have
received the gradings of their type
samples, and have sold several lots
this week at full schedule prices. It
seems that the scale published is ac-
cepted by the European buyers and
they expect to unload the crop at
those values, which are so acceptable
to the planters. The sales were from
the poorer crops, and lugs were sold
from 7 to 9 1/2 cents, and medium leaf
up to 13 1/2 cents.

Planters have nearly completed the
preparation of their plant beds, and
will resume the deliveries of their
crops loose when the weather is suit-
able. We have rains today, but it
may blow off too cold for handling.
The prizing houses have about pack-
ed up their stocks and heavy deliv-
eries could be cared for.

The stock of old tobacco consists
of small remnants of lots Leaf

tried yesterday morning in court on
a charge of drunkenness, but won the
leniency of the court with orders to
leave town by 6 o'clock and stay

be decent. When Garr got drunk he
went to his former wife's residence
and raised a general disturbance. Last
night he was loaded again and was
making life unendurable in the vicin-
ity of Eleventh and Jackson streets.
He was taken to the city hall by Pa-
trolmen Jones and Owen. His trial
was continued until tomorrow.

174 ENROLLED

HIGH SCHOOL IN SECOND SEMES-
TER HAS 122 GIRLS.

"Iskhoodah" Staff Will Produce Play
in Short Time—News of the
Schools.

During the second semester 174
students have been enrolled in the
High school, and of these 122 are
girls. The boys of the city are re-
presented by 52. Thus in Paducah, as
elsewhere, the trouble is getting boys
to remain in the High school. Many
of the boys start the freshmen year,
but when the senior year is reached
the number has dropped to a low
mark.

In the near future a play will be
given by the staff of editors of the
"Iskhoodah," the High school month-
ly, for the benefit of the paper. The
young players will be coached by
Misses Adah L. Brazelton and Anna
Bird Stewart, of the faculty, and the
play may be presented in the next
three weeks. Under the coaching of
the teachers the students have be-
come proficient in the art, and several
more ambitious efforts may be under-
taken this semester. The play has
not been selected, but several are
under consideration.

Miss Elizabeth Daugherty, of Nash-
ville, has been offered a position in
the Washington building, caused by
the resignation of Miss Mary Owen
Murray. Superintendent Casmage
has not received any word from Miss
Daugherty. Miss Daugherty is gradu-
ate of the Peabody Institute at
Nashville, and for several years was
a member of the faculty of the West
Kentucky college at Mayfield. She
was recommended highly to Superin-
tendent Carnagey.

Principals of the buildings held a
meeting with Superintendent Carnagey
yesterday afternoon at his office
in the High school, and the shifting
of several pupils from one building to
another to relieve the crowded condi-
tions was completed. Little more
complaint is expected now, as all the
troubles have been adjusted and the
work of the second semester has be-
gun in fine shape.

Miss Emma Morgan, principal of
the McKinley building, is ill today
and Miss Inez Bell is substitute in
her place.

George Jackson, principal of the
Lincoln building, is not teaching to-
day owing to a death in the family.
No session of his room was held.

MAYFIELD.

Was it real or a fake is the ques-
tion that is agitating the mind of
Chief McNutt since he received a tele-
phone message that the night riders
were coming. Monday night about
11 o'clock Chief McNutt received a
telephone message while at his home.
A man's voice was heard at the other
end of the line which said, "Mr. Mc-
Nutt this is a night rider and I want
to inform you that we are coming to
Mayfield. We know you and like you
and do not want to hurt you, so we
give you this warning for you to keep
out of the way that we will not be
compelled to injure you. Don't act a
fool and come after us." With this
information the stranger hung up the
receiver and refused to give his name.

Mr. McNutt did ascertain that the
person talked from the Newsom ex-
change of the Home telephone.
While Mr. McNutt was not much
excited yet he is inclined to think that
the warning was the real article.

The report that unknown parties
had salted the tobacco plant bed of
John Ford, of Sedalia, was erroneous.
Mr. Ford put the salt on the bed him-

CHARITY CLUB HAS CALLS FROM WILLING WORKERS.

Among the beneficiaries of the
Charity club are a number of women,
who are willing to help themselves by
doing washing and ironing or house-
cleaning. Anyone desiring the ser-
vices of such women, either white or
colored, should communicate with the
general secretary of the club at 307
Kentucky avenue, or by phone 629.
Under ordinary conditions the sec-
retary has more calls for women than
he can fill but at this season of the
year there seems to be more appli-
cants than jobs.

RIVER NEWS

River Stages.

Cairo	19.9	2.7	fall
Chattanooga	8.3	1.0	fall
Cincinnati	28.8	9.1	rise
Evansville	19.8	3.6	rise
Florence	17.4	0.6	rise
Johnsonville	12.8	1.2	rise
Louisville	10.5	2.1	rise
Mt. Carmel	7.9	0.9	rise
Nashville	20.9	4.8	rise
Pittsburg	2.4	0.3	rise
St. Louis	2.4	0.3	rise
Mt. Vernon	17.4	0.6	rise
Paducah	18.6	3.0	rise

Ohio continues to rise at Paducah reaching 25 foot stage by Sunday.

The Martha Hennen arrived last night from the Tennessee with a tow of ties. She took her tow on to Joppa this morning.

The American is due in today from the Tennessee with ties.

The Vincennes left today for the Tennessee after ties.

The Hosmer and the Fannie Wallace, sister boats, pulled the Charles Turner in the river yesterday afternoon. The Turner was towed to the dry docks this morning by the Fannie Wallace and was taken on for repairs.

The Buttort is due in today from Nashville and will leave immediately on a return trip.

The Jim Duffy got away this morning with nine barges for the White river to tow ties for the Ayer & Lord company. She will be gone several months.

The Clyde went to Brookport last night after taking on her freight at Paducah and received nine carloads of freight. She left at 3 o'clock this morning for the Tennessee.

The Mary Anderson left this morning for Nashville after ties for the Ayer & Lord company.

The Hosmer left today for Smithland after a tow of ties.

The Chattanooga is due in today from the Tennessee with a tow of ties and lumber for Brookport and Joppa.

She will leave tomorrow noon for Chattanooga.

River stage 18.6, a rise of 3.0 feet in the last 24 hours.

The Stacker Lee will leave Louisville, where she put up on account of the ice, tomorrow morning at 10 o'clock for Memphis. She is due here Sunday morning.

The Vincennes and two of her barges broke loose yesterday afternoon when the Fannie Wallace pulled a barge of coal alongside to coal her.

The crew of the Vincennes had left the boat and the watchman had gone for some reason, when she broke loose. The crew of the Fannie Wallace took charge of the Vincennes and got her landed after she had gone down the river about 300 yards. No damage was done the boat.

Richard Robinson, a colored roustabout on the Dick Fowler, did the herd act yesterday by pulling two people out of the river, one here and one at Joppa. The fellow that fell in here attempted to jump a gap between two boats, but fell short and struck his chin on the Fowler and fell senseless in the river. Robinson happened to be watching and hastened to pull out the man, who would have drowned had it not been for Robinson. The young man's name could not be learned. Another man by the name of Henry Clark fell overboard from the Fowler at Joppa and was pulled out by Robinson.

Official Forecasts.

The Ohio at Evansville and Mt. Vernon, will continue rising during the next 26 hours. At Paducah and Cairo, will continue rising for three days.

The Tennessee at Florence and Riverton, very little change during the next 24 hours. At Johnsonville, will continue rising for 24 hours.

The Mississippi from below St. Louis to Cairo, will rise tonight.

The Wabash at Mt. Carmel, will rise for two or three days.

Note: Ice reports are as follows: Parkersburg, navigation suspended; Louisville, river half full of floating ice; Evansville, some light running ice; Chester, river full of ice; Cape Girardeau, river half full of light floating ice. The ice in the Ohio at Cairo has thinned considerably, and in the Mississippi, back of Cairo, it is somewhat lighter.

To sow selfishness is certain to reap sorrow.

LAYMEN

WILL BE INTERESTED IN WORK OF CHURCH.

Broadway Methodists Decide to Institute Movement Along Modern Lines at Conference.

It was decided at the quarterly conference session of the Broadway Methodist church last night to inaugurate the Laymen's Movement in the church. Dr. Vernon Bythe was appointed "keyman" to the situation. The object is to develop the men of the church along the lines of more aggressive church work. This twentieth century movement is solving some of the problems of the large city churches today, and is giving a fine impetus to their activities.

It was the first quarterly conference of the church year, and the reports from all the departments of the church were encouraging. The Rev. J. W. Blackard, presiding elder, was in the chair and a large number of the officials were present.

RAILROAD NOTES

Fish-Harriman Fight.

With the final briefs filed, with Judge Ball in the circuit court in the fight for the control of the Illinois Central, and with legal counsel awaiting a decision, the Fish-Harriman fight for proxies goes merrily on.

The latest bid of the Fish faction for control of the road is a circular letter issued "to the stockholders, wherein are compiled statistics comparing the condition of the Illinois Central in 1906, Fish's last year in control, with that of the Chicago and Alton for the same year, Harriman's last year in control.

According to the circular, the Illinois Central spent \$29,459,290 from the income for permanent improvements, while the Alton, under Harriman, spent \$518,350—the Illinois Central, about four and one-half times as long as the Alton, devoting fifty-six times as much to permanent improvements. It further is pointed out that expenses of operation, including taxes, increased 95 per cent for the Illinois Central and 111 per cent for the Alton. Net receipts from operation increased 75 per cent for the Illinois Central and 41 per cent for the Alton. Net income from the Illinois Central from all sources increased 69 per cent, while the increase from the Alton was 38 per cent. Fixed charges, including interest, rents and sinking fund, increased about 17 per cent for the Illinois Central and 151 per cent for the Alton. In the amount available for dividends the Illinois Central increased 147 per cent, while the Alton decreased 37 per cent. The capital stock of the Illinois Central increased 81 per cent, as against a 79 per cent increase of the Alton. For the Illinois Central the amount of dividends paid on capital stock increased 153 per cent and decreased 47 per cent for the Alton. Net income from all sources, per mile per annum, increased 44 per cent for the Illinois Central and 29 per cent for the Alton, while the fixed charges decreased 52-100 per cent for the Illinois Central and increased 121 per cent for the Alton.

BIG FLEET AT ANCHOR.

Admiral Evans Joined by Torpedo Flotilla.

Punta Arenas, Strait Magellan, Feb. 6.—It was 2:15 o'clock when the American torpedo boat flotilla, consisting of six torpedo boat destroyers, came to anchor in the roads off this port near the battleships of Rear Admiral Evans' fleet. Their long voyage from Buenos Ayres occupied five days, and the little vessels stood the trip well. They arrived here in good condition, notwithstanding adverse weather. On two days of the trip, very rough weather was experienced, but no mishap occurred. During the remainder of the run very pleasant weather made the voyage easy.

I. C. MAY ISSUE SECURITIES.

Road Needs \$30,000,000 to Pay for Cars and Betterments.

New York, Feb. 6.—Directors of the Illinois Central railroad are considering plans for issuing equipment securities to the extent of \$30,000,000. For a year or more the company has had a large floating indebtedness incurred by the purchase of equipment and the building of several branch lines. The loan probably will take the form of bonds issued against an equipment mortgage.

Cut Down Naval Budget.

Washington, Feb. 6.—Concluding the appearance of navy officials before the house committee on naval affairs, Secretary McCall today asked for an appropriation of nearly \$74,000,000 for the construction and conversion of war vessels. While no vote was taken the impression prevails that the secretary's estimate will be reduced materially, possibly to the limit of \$40,000,000.
